Ava (our granddaughter)'s great-grandmother Janet Burleigh to Adam

(Here we go)

To keep the privacy of the living I deleted the 1st chart but will type the tree line followed here: granddaughter, son-in-law, his father, his father's mother Janet Burleigh, her mom Clara M Lee, her dad Sumner Lee, his mom Abbie Josephine Tilton, and finally it picks up at her dad Jonathan Tuck Tilton below. I counted and there are 136 generations from our granddaughter to Eve inclusive. That's 73,800,000,000,000,000,000 grandparents or 73 Quintillion 800 quadrillion 46 grandparents on this side of our granddaughters family.
