SCHOOL DISTRICT

March 8, 2013

TO PARENTS AND GUARDIANS:

On **Friday May 3, 2013**, physics students from SPASH will have the opportunity to join physics students from around the Midwest to participate in the **Physics Day at Six Flags Great America**. This is a special day at the park where all visitors are currently enrolled in physics classes. The students will complete laboratory activities designed especially for the rides, providing them with a unique opportunity to test our classroom physics using the rides and experiences available at the park. Those students who are unable to attend will complete an equivalent lab here at SPASH during the normal school day.

The trip will be an all-day event with the buses leaving about 5:30 AM and returning in the evening about 9 PM. The cost of the trip will be **\$62.00**. This includes coach bus transportation and entry ticket. Students will be responsible for their own lunch in the park. As the date nears, further information will be made available to the students.

If your student plans to participate in this trip, please sign and return this form with a minimum \$32.00 non-refundable payment by **Friday March 22**. All \$62.00 can be paid at this time, which would make our recordkeeping easier. Any remaining balance will be due **Friday April 19**. **Make your check payable to SPASH**. Your signature below indicates permission for full participation in the day's activities. The student's signature indicates an understanding of proper behavior and expectations, times of departure and arrival, and other details of the trip. If you have any questions, please contact your student's teacher at 345-5601, or use the email listed below.

Physics teachers:

Bill Jenkins, bjenkins@wisp.k12.wi.us

Paul Konichek, pkoniche@wisp.k12.wi.us

_____ has my permission to attend Physics Day at Six Flags Great America:
